

SPEAK UP

for libraries

Public library services and staff are under threat from cuts and closures on a massive scale. Facing disproportionate cuts, we need action now to safeguard the future of the public library service as a whole.

We are asking people to join with us to Speak Up For Libraries – both now and in the future.

During the lobby of parliament, on 13 March, we want local library users, campaigners and staff to help us highlight the importance of libraries in providing access to learning, information and knowledge and as a vital lifeline for many communities.

- **Join the rally** and see high-profile speakers, entertainment and films showing how libraries are a valued and vital resource.
- **Visit the 'pop up' library** and see the many faces of a modern library.
- **Arrange to meet your MP** and ask them to protect libraries.

Rally: 11.30am at Central Hall Westminster, Storey's Gate, Westminster, London SW1H 9NH. The lobby of parliament will start at 2.30pm.
